*Briefing*

Dr. Allen V. Astin, Director  
National Bureau of Standards  
Administration Building, A 1134  
Gaithersburg, Maryland 20884

Dear Dr. Astin:

I wish to express my appreciation to you for permitting us to use the good name of the National Bureau of Standards and your fine facilities in conducting the Federal Micropower Symposium recently. The success of the symposium was greatly enhanced by the splendid cooperation of your people and by the pleasant environment at NBS.

In addition, I would like to give credit to Mr. Franklin Montgomery, who served as the focal point for contact by both planners and invitees; Mr. George Knox, who rallied the NBS support services to our aid; and to Messrs. Walter Rabbitt and Robert Cook, who coordinated many of these support services for our benefit. Without their cooperation the task would have been much more difficult and probably not nearly as successful as it was.

Sincerely,

[Redacted Signature Box]

Carl E. Lockett  
Deputy Director  
for  
Science and Technology
